2017 CAESARSTONE NEW COLOUR LAUNCH

In the year that Caesarstone is celebrating its 30th anniversary. Caesarstone is pleased to announce the launch of five new colours into the Caesarstone collection.

Following on from **Rugged Concrete™** released in July we are extremely excited about **Cloudburst Concrete™** - a white on white tonal cloud like patina to complement our existing concrete range, emulating the look of hand poured concrete, including the new “rough” surface finish.

Frozen Terra™ with its sparsely distributed aggregate set in an off-white base colour reflects the terrazzo/concrete aesthetic fusion. **Canon Terra™** with its dark grey base and sparsely distributed aggregate and matt surface is our darkest concrete design to date.

If it's a granite inspired design that you are looking for, look no further than our **Turbine Grey™** a next generation modern granite with mid to dark grey veins and white features within its unique pattern movement. Perfect for transitional interiors.

Well known for innovation in white tones Caesarstone is introducing **Intense White™** their newest whitest white. Modern, crisp and fresh this bright white works perfectly with any interior style, and many materials.

To fully appreciate the latest Caesarstone colours, large panels can be viewed at the nearest Caesarstone showroom and kitchen retail outlets locatable using Caesarstone's Find a Display website tool.
