April 2010**

Bench top Glamour

The latest colour to be offered by CaesarStone is **White Shimmer**, adding glamour and sophistication to the large range of white and neutral shades available.

Made from pure quartz, White Shimmer has a fine grained, white background featuring ultra fine mirror chips. This new design reflects the trend towards more subtle features which can be highlighted using lighting or complementary materials.

At close view White Shimmer reveals a unique surface, featuring a delicate shimmer created by the reflection of light from randomly placed mirror chips. While at a distance it offers the sleek and consistent surface aesthetic CaesarStone is renowned for.

White Shimmer is a versatile colour option that will add subtle elegance to any project. Suitable for both residential and commercial applications White Shimmer will complement many modern materials including glass and stainless steel.

CaesarStone bench tops come with a 10 year limited warranty, are heat, stain and scratch resistant and never have to be sealed or polished to retain their brilliant shine. Floor to ceiling samples of the complete colour range can be seen in CaesarStone showrooms nationally.

For further information on the new colour range please call Linda Hannah on 02 8197 4917.
