

**Media Release  
February 2011**

**Caesarstone® Motivo Splashbacks**

Caesarstone is a highly popular choice for kitchen splashbacks especially for customers wanting continuity of the benchtop with minimal joints and grout lines. Ideal for wet area's and easy to clean and maintain.

A new and interesting application that we are starting to see is the inclusion of Motivo as splashback surfaces, apron edges, dropdown panels & bar fronts. This is in combination with the same colour as Motivo, (Snow with Lace or Jet Black with Crocodile) or with another Caesarstone colour.

Caesarstone Motivo is the World's first quartz product that incorporates a sculpted, patterned surface achieved using a patented technology developed by and exclusive to Caesarstone. Beautifully decorative, Motivo features a contrasting gloss and sculpted texture finish.

With the popularity in decorative & textured finishes continuing, Caesarstone Motivo offers a contemporary and highly effective alternative to traditional patterned surface materials such as decorative ceramic tiles and wallpaper.

These stunning, modern surfaces can be used as a standalone feature or incorporated into the textural layering of a range of beautiful materials and patterns.

**Motivo is available in 2 standard designs including:**

**Lace 2141** - An intricate, floral pattern with elegant & delicate detail. This versatile design is available in the popular shade of Snow and will suit many applications.

**Crocodile 3100** - A sophisticated & bold pattern that will add understated glamour to any project. A jet black surface, Crocodile is highly tactile and will add depth, intrigue and mood to any design.

Whilst Caesarstone Motivo is designed primarily for vertical applications such as wall paneling in bathrooms, living areas, entrance foyers, kitchen splashbacks as well as decorative panels, it can also be used for some horizontal applications such as custom furniture surfaces.

Suitable for both residential and commercial applications, Motivo shares the same properties of strength and durability as the original Caesarstone quartz surface. As with all Caesarstone surfaces, Motivo is nonporous and low-maintenance and comes with a 10 Year Limited Warranty.

In response to consumer demand Motivo is now available to purchase in large size samples 250mm x 250mm online at [www.caesarstone.com.au](http://www.caesarstone.com.au)

***For further information on Motivo or splashback applications, please call Linda Hannah on 02 8197 4917.***
