2020-21

New Outdoor Collection
Available Now.
Caesarstone® takes the calacatta gold design to the highest level possible for engineered stone. Using a unique and patented new technology, Calacatta Maximus presents an incredibly natural and highly sophisticated design with layers of depth never seen before in a quartz benchtop.

Product Information:
Nominal slab dimensions: 3050mm x 1440mm  Slab Thickness: 20mm  Finish: Natural  Category: Supernatural Ultra

Outdoor Collection

The luxury and high durability of Caesarstone® is brought to outdoor entertaining with a uniquely designed breakthrough. The Outdoor Collection is a proven and highly UV resistant quartz surface that's ideal for alfresco areas, BBQ settings and outdoor furniture. The three designs work beautifully in any area of the home – inside or out – and offer a seamless design flow throughout.

Outdoor Collection Product Information:
Nominal slab dimensions: 3050mm x 1440mm  Slab Thickness: 20mm  Finish: Concrete  Category: Supernatural

515 Palm Shade™
The classic look of white marble with a white base and discrete veining.

405 Midday™
This versatile light concrete look correlates to the organic beauty of nature.

406 Clearskies™
A darker, earthier concrete look that suits both indoor and outdoor applications.
The Caesarstone® Difference

Your Renovation Partner.

We make a complex process easy with support, inspiration and a human touch. We help you with all the details so you can bring your vision to life. Start your journey at www.caesarstone.com.au

Innovative Superior Designs.

Caesarstone® leads the way with the latest on-trend designs. Whether it’s a timeless classic or a breath-taking new design, Caesarstone® lives at the heart of your dream home.

Total Peace Of Mind.

Caesarstone® produce the highest quality surfaces that are durable & easy to maintain with our range of cleaning products. We support you with a 10 year limited warranty and impeccable customer service support.

We conform to all the relevant International Standards.

Caesarstone® is made from natural quartz and therefore some variation in colour and aggregate may occur. The colours in this brochure are to the highest standards in printing, however, should only be used as an indication of actual product design. We always recommend making a final colour selection by viewing displays of larger panels in your nearest Caesarstone® showroom or kitchen retail showroom to appreciate the movement of the design over a large surface.

We are building a world free of binders!

Everyday Cleaning

Caesarstone® surfaces require very little maintenance to keep them looking like new. For everyday, routine cleaning of Caesarstone® we recommend wiping the surface with warm soapy water (a mild detergent) and a clean damp cloth, or use our convenient Caesarstone® Spray Cleaner. Do not use the cloth you use to wash the dishes, as it may transfer oils and other contaminants to the Caesarstone® surface.

As Caesarstone® is virtually non-porous, it will never require polishing or sealing. Never attempt to polish the surface and avoid prolonged rubbing in one spot when cleaning.

To remove adhered materials like food, gum and nail polish, first scrape away the excess with a sharp blade. If there are any grey metal marks on the surface, use a small amount of Caesarstone® Cream Cleanser on the light blue sponge side of a 3M™ Scotch-Brite™ Non-Scratch Foam Scrub, gently rub over the mark and thoroughly rinse with warm water to remove it. Household bleach can generally be used as an effective cleaner to remove stubborn marks, but care should be taken as some products are considerably stronger than others.

If you have stubborn marks which still can’t be removed, view our online Frequently Asked Questions or contact us on 1300 119 119 for further advice.

Caesarstone® Concrete and Natural finish designs carry the same stain and scratch resistance as our polished surfaces, never require sealing and are simple to clean. However, these two finishes do not disguise marks and fingerprints as well as the polished designs, meaning more regular cleaning may be required.

The above also applies to dark and black colours in our range. Whilst Caesarstone® is scratch resistant, like all surfaces it is not totally scratch-proof. Black and dark surfaces can show scratches more readily than a lighter surface.

Caesarstone® Cleaning Products

Caesarstone® has developed a range of specially formulated cleaning products designed to keep your quartz surfaces looking their best. Caesarstone® Cream Cleaner and Spray Cleaner are available to purchase through our online store.

Food Preparation

We always recommend cutting on an appropriate cutting board and never directly on the Caesarstone® surface to avoid blunting kitchen knives or damaging the surface of your benchtop.

Heat Resistance

Caesarstone® is heat resistant, however like all stone materials; Caesarstone® can be damaged by sudden and rapid surface temperature changes. A good rule of thumb is that if your hand cannot tolerate the level of heat of an item to be placed on the surface for more than a few seconds, then the heat source is too high. We always recommend placing hot pots, hot oven trays, frypans, and electrical cooking appliances onto a wooden chopping board or cork mat.

Care & Maintenance - Concrete & Natural Finishes, Dark Colours

As with any surface, Caesarstone® can be permanently damaged by exposure to strong chemicals and solvents that undermine its physical properties. Do not use products that contain trichlorethane or methylene chloride, such as paint removers or stripper. Avoid all contact with highly aggressive cleaning agents like oven cleaners that have high alkaline/pH levels. Should the surface be accidentally exposed to any of these damaging products, rinse immediately with water to neutralize the effect.

Watch video and visit our cleaning & care page.
