Design Collection

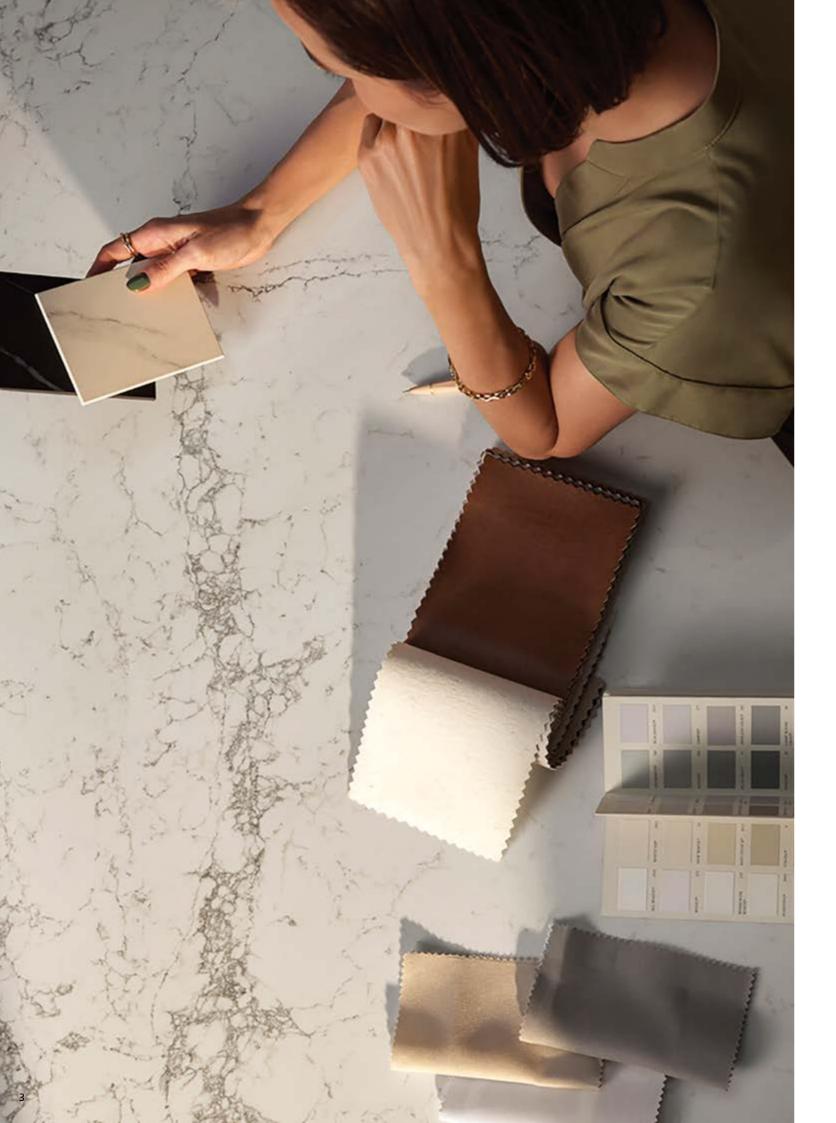

Explore the Caesarstone ICON™ Design Collection

Where cutting-edge innovation meets timeless design. Welcome to the Caesarstone ICONTM Design Collection, a curated showcase of our most advanced mineral surfaces. Designed for architects, designers, and discerning homeowners, this guide offers a closer look at the artistry behind each surface.

From bold statement veining to refined, tonal textures, every design reflects the elevated standard of beauty and performance that defines Caesarstone ICONTM.

Your Guide to the Design Collection Catalogue

The Caesarstone ICON™ Design Collection Catalogue is designed to inspire your creativity and support confident surface selection for your next project.

It offers an elevated visual experience by showcasing larger areas of each design, capturing the subtle movement, tonal variation, and layered complexity that define our latest generation of advanced mineral surfaces.

This collection represents a new era of design sophistication. With flowing veining, rich textures, and dynamic depth, Caesarstone ICONTM surfaces transcend the simplicity of traditional uniform patterns, inviting you to explore surfaces that are as individual as your space.

Do Samples Tell the Whole Story?

While samples remain an essential part of the decision-making process, they reveal only a glimpse of the full story. That's why this digital catalogue presents an expanded perspective, allowing you to better visualise how each design might transform your interior.

Please note that while every effort has been made to ensure accuracy, digital representations are indicative only. For complete confidence in your selection, we recommend viewing a larger display or full slab at one of our Caesarstone showrooms or retail partners.

True beauty lies beneath the

Caesarstone ICON advanced mineral surfaces are crafted from our crystalline silica-free blend of recycled and other innovative materials, therefore some variation in colour and aggregate may occur. The colours in this brochure are to the highest standards in printing, however, should only be

used as an indication of actual product design. We always recommend making a final colour selection by viewing displays or larger panels in your nearest Caesarstone showroom or kitchen retail showroom to appreciate the movement of the design over a large surface.

Discover and Design Discover everything you need to bring your design ideas to life. Browse the Inspiration Gallery for real-home looks, order a swatch sample to explore your favourite colours up close, and watch your benchtop come to life with our AR feature. You can also find a display or visit Caesarstone Studio to Plan it. Spec it. Create it. It's your starting point for creative confidence and beautifully simple decisions.
